Short description

The International Sport and Culture Association (ISCA) and inFocus created this course as part of the Integration of Refugees Through Sport Networking Platform project, funded by the European Union under the Pilot Projects and Preparatory Actions in the field of Sport stream.

The course builds upon previous experience from ISCA and our partners in IRTS projects that have aimed to build the capacity of the 'doers' in the field – the people who deliver activities with and for refugees and asylum seekers. If you would like to learn valuable advice and practical tips from people working for sport and humanitarian organisations, we recommend you to take our basic course on Integration of Refugees Through Sport before continuing with the Theory of Change module.
